DOUGLAS FIR

The second best selling Christmas Tree in the Country, Ornamental and Timber. Start a planting this year. Very much in demand and brings large prices.

2 yr.	2-4 in.	3.00	15.00
	4-8 in.	6.00	30.00
3 yr.	3-8 in.	7.00	35.00

We have had many requests in the past for small seedlings that a person may secure at a low price to put in transplant beds for a few years prior to field planting. For these people and for others who may have the same idea we are now listing this size at a very low figure. We do not recommend these for direct field planting except in areas where they have proven themselves.

Scotch Pine	2 yr.	1-3 in.	7.00 per 1000
Blue Spruce	3 yr.	1-3 in.	10.00 per 1000

TERMS

This list cancels all former quotations.

Prices subject to change without notice. Prices are F. O. B. Shelocta, Pa. We do not extend credit. Our low prices are for cash.

All orders to be accepted must be accompanied by a deposit of at least 25%, balance prior to shipping or order will be sent C. O. D. There is a 50c packing charge on seedling orders less than 1000. Orders over 1000 will be packed free. Our free packing is your discount except that our list prices are subject to a 5% discount on quantity purchases of 25,000 or more. Send want list for special quotation on larger orders.

No order accepted for less than 25 of one kind and size. 50 of one size and kind at the 100 rate. 500 trees at the 1000 rate. Samples will be charged at the 100 rate. Should samples prove to be satisfactory and result in an order we will credit cost of samples toward your order and samples are free.

Spring orders accepted from this Fall list will not be subject to any future price increase.

Please do not remit for shipping charges as shipping costs cannot accurately be estimated prior to date of shipment.

Parcel post shipments sometimes get split in transit and some crates are delivered at different times. Wait a day or two before claiming shortages. We will notify you when we are making split shipments.

Phone us several days before desired pickup date. When writing give us at least five days notice.

We are equipped to grow many more trees than we do grow at present. We can contract to grow for you your future needs of evergreen stock. If interested, inquire. We also supply other Nurseries and many Mail Order Outlets with our seedling and transplants. If interested, inquire.

Order early. Earliest orders given preference for earliest shipping dates.

Our liability ceases when trees are delivered to carrier. If breakage occurs or if stock suffers through delay in transit claims should be made on the transportation company immediately.

We accept orders on the following basis: We do our best to ship stock to arrive at destination on your specified date. However due to changing weather we can not always guarantee to have trees at a destination on a definite date.

We try very hard to keep our stock true to name and will upon proper proof replace any stock that is found otherwise; but it is mutually agreed that we will not be responsible for more than the original purchase price.

We always strive to send out the best possible, healthiest trees and when trees leave our Nursery they are in tip-top condition. Since we have no control over them after they leave we cannot guarantee their survival if they are not properly handled or planted or if the weather is too dry or for any other reason that may cause poor survival.

We reserve the right to cancel orders if necessitated by weather conditions or for any other reason beyond our control.

When & How To Plant Trees

Shipping Season:

Fall shipment will begin about September 15 and continue into November depending on weather. Trees will be shipped as close to your requested shipping date as weather permits. Give second choice on late order. Best results are obtained by spring planting as early in March as weather permits and up to May 15 as governed by weather. In fall planting greater care must be taken to see that sod is tightly packed around the roots when planted or fall and winter freezes and thaws will heave and expose the tree roots to air and the trees will die.

Take care of your Nursery Stock immediately upon its arrival. If possible plant at once when you receive shipment. Roots should not be exposed to sunlight or drying winds. If weather is too cold for planting put the box or bundle in a cool but frostproof cellar and moisten roots. If you are not ready to plant, heel stock in the ground. Heel in your trees in a place where they will have protection from the sun and wind, a place convenient to the planting site and if possible in a shaded location, such as the north side of a building or woodlot. Dig a trench deep and wide enough to hold the roots without crowding. Place the roots in the bottom of the trench and spread out the trees so the dirt can be filled in about the roots to exclude air. Then heap more soil on the roots to cover roots completely and pack firmly. If ground is too dry moisten the dirt about the roots.

It is not necessary to prepare the soil in any way before planting, as the additional expense is not justified and we find that grass and weeds prove a benefit in conserving the moisture and a shade during the first few years after planting. Do not use any kind of fertilizer on the soil. Immerse roots of trees in a bucket of soapy mud to keep the roots from drying out. Dig a hole deep enough to accommodate the roots and firmly pack the soil around

the roots. When trees are planted too close together, they crowd and the resulting competition speeds the height growth and tends to make a poor Christmas tree. Spacing trees 4 ft. by 4 ft. requires approximately 2700 per acre and can be used where thinning is contemplated at an early age; 5 by 5 ft. require approximately 1700 and is most generally used as it allows for thinning and will still leave a good stand for timber; 6 by 6 ft. requires approximately 1200 per acre and is recommended where trees are planted for forest products and no early thinning is to be done.

We advise booking your order early—NOW—and avoid disappointment. Some items are in limited supply. May we therefore advise you to list secondary choices.

In presenting you with this Wholesale Price List we wish to thank our customers and friends for their liberal patronage given us in the past and we hope for the pleasure of serving you again in the future.

We believe these are the nicest seedlings and transplants we have ever grown. We invite your inspection.

Our Nursery Sales office is open week-days 8:00 a. m. to 4:30 p. m. Sundays by appointment only.

Phone at Nursery, Elderton Fleetwood 4-2461, evenings, Tony Canale, Elderton Fleetwood 4-3505.

Besides offering the trade the evergreen seedlings listed here we also have approximately 2000 acres of Christmas Trees lined out. We plant the strains of Scotch that we find best for our own plantations. (Origins on request). For anyone interested in cut Christmas Trees we invite your inspection.

We believe that the best way to build a lasting and pleasant business is to produce the best plants possible and to sell them at a reasonable price.

We have very nice seedlings, stocky with healthy root systems. We grade very carefully, eliminating poor, small spindly seedlings that will have a hard time growing, and thus package a very high quality product.

The old saying that "Anyone can make an inferior product, cheaper" still holds true. Our low prices are the best possible for a quality package. We could cut quality and sell lower but we have built our business through the faith of our customers that know they will get the best and the most for their dollar from us in a quality package.

We depend a great deal on our customers recommending our products to others. We hold down advertising costs by letting our customers advertise for us and our customers get the benefit of our lower costs in the form of lower prices on our seedlings.

We know we are pleasing old customers. Why not let us prove that we can make old customers out of new ones?
